ner of Gruelling Run—Third
Place For American

AMERICANS WON 1600
METER RACE TODAY, EASY

Failed to Score in 8000 Meter
Cross Country Run—All But
One Exhausted in Run

STOCKHOLM, July 15.—The death
of Lazarro, the Portuguese, following
the marathon run yesterday and the
condition of Slavik, the Bohemian,
who is expected to die, has caused a
sweeping sentiment against that clas-
sic event.

A movement has been started to dis-
continue the marathons or any run.
During the night Lazarro died of delir-
ium, shouting that he was winner.

SWEDEN WINS 8000 METER
CROSS-COUNTRY RACE—ALL
BUT ONE MAN EXHAUSTED

America failed to score in the 8000
meters cross-country race. Kohle-
mainen of Finland, won easily, with
Anderson and Ek of Sweden, sec-
ond and third. Howells, the first
American finishing, was twelfth. All
the contestants except the winner
were exhausted.

In the 800 meter team swimming
race, Australia won, with America
second and England third. In the
high diving contest, Sweden won;
Germany second; Sweden third.

AMERICAN TEAM EASY
WINNER OF 1600-METER
RACE—FRANCE WAS SECOND

The Americans won easily in the
1600-meter team race. They ran the
Britishers off their feet, permitting
France to nose into second place, with
England third. The American team
included Sheppard, Meredith, Lind-
berg and Reidpath.

WON MARATHON—STROBINO
WON MARATHON—STROBINO
OF NEW JERSEY WAS THIRD

STOCKHOLM, July 15.—The Mar-
athon, the classic of the Olympian
games, was won by K. K. McArthur,
of South Africa, yesterday, with G.
Gitzshaw, also representing South
Africa, second. The winner's time
was 2 hours and 36 minutes for the
course of about 25 miles.

Gaston Strobino of South Paterson,
N. J., an unheralded runner, who
scarcely figured to finish in the great
race, upheld the honor of the United
States by taking third place, after
one of the most remarkable sprints
witnessed during the games. His
time was 2 hours, 38 minutes and 42
seconds, a little more than two min-
utes behind the winner.

Although they lost the event, with
the exception of one point, team hon-
ors for the Marathon undoubtedly be-
long to the United States. There
were ten Americans among the first
twenty to cross the finish line. The
runners in the Marathon finished in
the following order:

K. K. McArthur, South Africa; C.
W. Gitzshaw, South Africa; Gaston
Strobino, South Paterson, N. J.; An-
drew Stockelias, Maine; J. Duffy,
Canada; Sigge Jacobson, Sweden;
John J. Gallagher, Yale University;
Joseph Erlieben, Missouri; A. J.
Richard F. Pigott, North Dorches-
ter, A. J.; Joseph Forshaw, Missouri;
A. C. J. Fabre, Canada; C. H. De
Mar, North Dorchester, A. A.; Bo-
leiro, France; H. Green, England;
Harry Smith, New York City; W. H.
Forsythe, Canada; Louis Tewanima,
Carliste Indian School; Thomas H.
Lilley, North Dorchester, A. A.

TERRIBLE FEATURES OF MARATHON AS DESCRIBED BY HAYES, 1908 WINNER

STOCKHOLM, July 15.—The tragic features of the Marathon race run
yesterday, among which the most tragic is the death of the Portuguese
runner and the near-dying condition of the Bohemian, Slavik, another of
the participants in the classic, makes the following statement of peculiar
interest and weight:

(By Johnny Hayes, the Winner of the 1908 Marathon.)
STOCKHOLM, July 15.—In such terrific heat as yesterday's the Mar-
athon race is a disgrace to civilization. Seventy-five men drove themselves
into a state of insanity. Only thirty-five were able to finish, and the ma-
jority of them are demented. The temperature was nearly one hundred
degrees. The stories of the sufferings of the runners and what they did in
their deliriums, are too gruesome to tell. One is already dead and another
is dying.

The American runners' stamina is almost beyond belief. The South
Africans are used to such heat, and therefore are able to run strongly. The
best of the other runners were compelled to quit. Six miles from the fin-
ish line, the American who had sprinted from twentieth to sixth
place, began walking. With tears in his eyes, he begged the other contest-
ants to walk. McArthur, winner, frothed at the mouth like a mad dog.
Gaston Strobino, who took third place and the man who is an Ameri-
can is a five-dollar a week mechanic of Paterson, N. J. He deserves more
credit than the nation can give.

TIME NOT FAR DISTANT WHEN BONDS FOR GOOD ROADS WILL BE ASKED

The County Highway Commission is beginning to see
daylight. It hopes that the time is not far distant when good
roads \$1,250,000 bonds can be submitted to the voters of
Orange County.

There has been a long delay because there was no as-
surances from the State Highway Commission as to the
route to be followed by the state highway through this coun-
ty. The county commission now has an unofficial assurance
that the main road through the county will be selected.

With this as a basis the county commission has pre-
pared a map showing the proposed laterals and other roads
of the county proposed for improvement by a county bond
issue. The amount estimated for the county work is \$1,250,-
000. This map was submitted to the Board of Supervisors
today for inspection.

SWEEPING REDUCTIONS TO BE MADE IN U. S. EXPRESS RATES

WASHINGTON, July 15.—Sweep-
ing reductions in express rates, aver-
aging, in general, approximately 15
per cent; drastic reforms in regula-
tions and practices; and compre-
hensive changes in the methods of
operation, are prescribed in a report
made public yesterday by the Inter-
state Commerce Commission of its
investigation into the business of the
thirteen great express companies of
the United States.

Dealing with the identity of inter-
est between the various companies,
the report finds that while these com-
panies are separate legal entities, "it
is of interest to regard the fact that
by stock ownership and otherwise
they are so interlaced, intertwined
and interlocked that it is with diffi-
culty we can trace any one of the
greater companies as either wholly
independent in its management or
the agency of a single railroad sys-
tem.

Thorough Inquiry
The inquiry was the most extensive
and, in wealth of infinite detail, prob-
ably the most thorough, ever prose-
cuted by the commission. It was con-
ducted and the report was prepared
by Commissioner Franklin K. Lane.

POLITICAL POT DENSE FOG WAS BOIL THIS WEEK CAUSE OF WRECK

Unwilling to be Factional Can-
didate, Stephenson Leaves
Race For Assembly

TALKING CHAPMAN
FOR THE SENATE

Meeting of Republicans Held
Saturday to Urge Him to
Get Into the Race

This is going to be a week of rapid
developments in local politics. Today
one candidate, T. E. Stephenson, with-
drew, and the possibility of new men
entering the arena both for assembly-
man and state senator has become a
probability and almost a certainty.

The state-wide fight to make every
candidate declare his position abso-
lutely as to how he will vote when he
gets to the state convention has had
a quickening effect. This was be-
lieve in the fight being made by Gov-
ernor Johnson and the progressives
of the state to have Roosevelt elec-
tors named at the state convention
want to know that the man who gets
their support is going to vote for
Roosevelt. The Taft people are not
going to sit idly by and see elected
any candidate so committed.

Chapman Talk
There has been a good deal of talk
to the effect that C. C. Chapman
would run for the nomination for
state senator in this district the thir-
ty-ninth, which comprises Orange,
Riverside and Imperial counties.
So far, however, Chapman has not
agreed to run, but pressure has been
brought to bear, and he has promised
to give his answer within two or three
days.

The Riverside Press gives the fol-
lowing list of Riverside Republicans
as having attended a meeting of Taft
Republicans at Santa Ana on Sat-
urday: W. G. Fraser, F. M. Dunbar, W.
H. Robinson, W. B. Clark, F. A. Mil-
ler and Cloyd Marvin, and A. F. Call.
Hon. George R. Freeman and W. H.
Jameson of Corona.

J. N. Anderson of Santa Ana has
been out for the nomination for some
weeks. He is a Progressive Republi-
can. Miguel Estudillo of Riverside is
also tentatively in the race as a Pro-
gressive.

Stephenson Withdraws
T. E. Stephenson of Santa Ana to-
day declared that he was out of the
race for the nomination for assembly-
man from this district.

He entered the race as a non-fac-
tional candidate, and assured partisans
of the two factions that he would run
that way. The situation has changed
materially since then. An unusual and
unforeseen condition has arisen in
that a candidate for the legislature
also virtually becomes a candidate
for delegate to the state convention
in which a bitter fight is to be waged.
Stephenson found that he could not
stay in the race without being in a
position of having deceived his friends
on one side or the other, and for that
reason he has stepped down and out,
which leaves the field clear for each
side to get out a candidate and go to
bat on the straight Roosevelt-Taft is-
sue.

His Statement
Stephenson's statement follows:
"By this announcement, I with-
draw from the race for the Republican
nomination for assemblyman for this
district, and in doing so I wish to
make the following statement:

"When I entered the race it was
with the distinct understanding with
friends of mine in the Republican
party that I should run free of faction;
I go to the legislature, if elected, to
represent Orange County to the best
of my ability free to use my best judg-
ment upon the measures that might
come before the legislature. While
my attitude toward the state adminis-
tration was plain, I was running as an
independent Republican. Upon that
stand, I secured signatures on my nomi-
nation petition from extremists be-
both factions of the Republican party,
and received kindly notices from most
of the papers of the county upon that
ground.

"The situation has so changed that
a candidate must be a factional can-
didate if he remains in the race. The
last legislature passed a law whereby
the nominee of a party for assembly-
man becomes a delegate to the state
convention that names the party elec-
tors. The third party fight has made
this matter of importance. The
Roosevelt followers in this state in-
tend to have that convention nomi-
nate Roosevelt electors, and the Taft
followers are meeting that issue in
every district. That is the one issue
in the September primaries. A person
cannot stay in the race unless he be-
comes a factional candidate. He must
line up either as a Taft candidate or
a Roosevelt candidate.

"At no time have I desired to be a
factional candidate. In view of my
declarations that I was not, and would
not be a factional candidate, it seems
to me that the consistent and only
honorable thing for me to do is to
withdraw.

"In withdrawing, I wish to thank
my friends for their assurances of
support."

Ice Dealers to Profit by Ice Stored For Poor

SCHENECTADY, N. Y., July 15.
—A public auction of ice owned
by the city's Socialist administra-
tion is expected to come off today.
The administration last year
stored ice to protect the poor
from overcharges during the sum-
mer. Ice dealers enjoined against
selling by the city councilmen, as
individuals took ice from the city
and sold it.

Judge Whitmayor today ordered
the auction and it is expected the
ice dealers will bid in the ice and
advance the price to the figure
paid for it plus their profit.

The heat here is intense and
much suffering exists among the
poor.

Loss—St. Louis Estimates
Her Loss at Million

MEXICO CITY, July 15.—
Following a special cabinet
meeting today it is reported
that federal troops will start
immediately for the State of
Guanajuato, where cloudbursts
have wrecked two cities and
many villages.

It is reported one thousand
people are dead, with a dam-
age of twenty millions. Crops
have been destroyed and dan-
ger of famine this winter is
great. Thousands are reported
as homeless and foodless.
Peons are robbing and looting.

DOZEN FEARED DEAD IN
DENVER CLOUDBURST—
FOUR MILLIONS LOSS

DENVER, Colo., July 15.—Although
the police fear a dozen people are
dead, only one death report has been
confirmed as resulting from the cloud-
burst and flood sweeping Denver late
yesterday. Two people are reported as
missing.

The property loss is from one to
four millions. The homeless were
sheltered today in the public build-
ings of the city, all of which were
thrown open to them.

ST. LOUIS LOSS FROM
CLOUDBURST, \$1,000,000
ST. LOUIS, July 15.—A conserva-

Arnold was notified that the waters
of Castlewood Lake, which are im-
pounded by the Castlewood dam,
eighty miles north of here, are ris-
ing rapidly and that the dam is like-
ly to go at any moment. If the dam
should collapse it would sweep many
times a greater flood of water into
Denver than did yesterday's cloud-
burst storm. The dam is among the
largest in the world. Couriers have
been sent to ascertain the exact con-
ditions.

DARROW DEFENSE
WON POINT TO-DAY

LOS ANGELES, July 15.—The Dar-
row defense won a notable victory to-
day when Judge Hutton ruled for the
admitting of the testimony of Tom
Johnson, a Los Angeles attorney who
acted as counsel for Bert H. Franklin
following Franklin's arrest on a jury
bribery charge. Johnson is expected
to testify that Franklin privately told
him that Darrow was not connected
with the bribery.

The prosecution had held that
Franklin's statements to his counsel,
were inviolate. Judge Hutton ruled
that Franklin's action in becoming a
witness in the present case, waived
his privilege of expecting counsel's
silence.

NEWSPAPER MEN AND LABOR
LEADER IN DARROW TRIAL

Subpoenas have been issued for the
appearance of Olaf Tveitmo, secre-
tary-treasurer of the State Building
Trades Council, and former custodian
of the California McNamara defense
fund, C. E. Parsons, and Fremont Ol-
der, San Francisco newspaper men, at
the trial of Clarence S. Darrow, who is
charged with jury bribing, to testify in
behalf of the defense.

old.

MANY VISITORS AT LAGUNA BEACH

Fire That Started in Laundry
of Hotel Yesterday Was
Soon Extinguished

LAGUNA BEACH, July 15.—Yesterday was a lively day along the section of coast between Fisherman's Cove and Arch Beach. Scores of people were here to see the new tract of land opened on the cliffs, while the Arch Beach Heights people had a good crowd looking over its property at Arch Beach.

The summer has every indication of being a big thing for the coast. The hotel is giving excellent service, and visitors attracted here by the advertising of the new tracts are not small in number.

Yesterday was the first big day on McKnight's Cliffs subdivision. One big truck brought down thirty people from Los Angeles.

The Arch Beach Heights tract begins the season with new cottages recently erected by each of the following: Dr. Hinds and Dr. Stillman, both of Pasadena; Mr. Post, Miss Jane Adams and Miss Hardenberg, all of Riverside.

of assistants to help put out a fire that had started in the laundry of the Laguna Hotel. The work was well done, and the flames were soon out. The fire started probably because some of the employees had left a coal oil stove burning. The laundry is an out-house adjoining the store-room on the south side of the hotel court-yard, and is separated from the hotel building. Joseph Yoch was the first to see the fire. A hose was attached to a faucet. A bucket brigade was formed, by the willing people who came to help. The fire was put out before damage amounting to over \$40 was done.

Fine Ranch Home
Mr. and Mrs. Thomas Doyle have completed a fine bungalow ranch-house on the canyon ranch that Doyle is farming. The new home is comfortably and attractively finished. The feature of the house is a magnificent fireplace. It is built of white quartz rocks gathered from all over the hills and along the coast from Laguna Beach to San Juan-by-the-Sea. Whenever Doyle was out looking after his cattle and found a rock that fitted the fireplace he had in mind, he took the rock home regardless of the toll.

Doyle is farming about 100 acres of land in the canyon bottom, and his cattle range comprises about 1400 acres. His cattle are looking well.

Automobile Trips
The number of visitors here this season will be augmented by the conveniences of travel by automobile buses. There are two lines to Santa Ana. Both have been carrying lots of people, particularly on Saturdays and Sundays. Commencing Saturday the Arch Beach line put on another round-trip, leaving Arch Beach at 3:30 p. m. and Santa Ana at 6 p. m.

Personals
Miss Ethel Roper of Santa Ana, left yesterday after a week's visit with Miss Florence Yoch.

Dr. Robertson's family of Santa Ana have occupied the Shamrock and will remain here for the summer.

Mrs. H. G. Hull and daughter, Helen, and Dr. Clara Betz, occupied the Turner cottage during the week-end. Mrs. and Mrs. Cecil DuBois, Mr. and Mrs. H. E. W. Barnes, Jr., Misses Marvel Baker and Florence Mullinix and Robert Alexander formed a house party at the Baker cottage over Sunday.

J. D. Thomas and family of Santa Ana motored here yesterday.

J. Clyde Horton and S. Wheaton and their families were here yesterday.

CLOUDBURST HIT ST. LOUIS, MO. AND NEARBY TOWNS

ST. LOUIS, July 15.—A cloudburst struck St. Louis and surrounding cities at 3 o'clock yesterday morning. At Alton, Ill., the damage to property amounts to \$250,000. The gas works was destroyed. Four persons were drowned when a nine-foot wall of water from the Platte Valley raced down. In St. Louis the cloudburst was accompanied by a spectacular electrical storm.

—On August 1st, I. W. Van Cleave will consolidate his two barber shops at the Rossmore in a ten chair shop.

Do your feet hurt? Dr. Mitchell, Chiropractor, will stop it. No. 108 1/2 East Fourth Street.

"MAKING GOOD"

FINANCIALLY

People are said to "make good" in a financial way when they apply that wisdom in administering their incomes which enables them to lay up something.

You will never make good financially as long as you spend all you earn. You will begin to make good when you make a start as a money saver.

Why not begin now with a savings account with THE HOME SAVINGS BANK OF SANTA ANA, which pays 4 per cent interest annually, and is affiliated with and under the same conservative management as

THE

Farmers' & Merchants' NATIONAL BANK OF SANTA ANA.

A Home Investment

Guarantee Building and Investment Co.

A half million dollar corporation offers you a safe and profitable investment paying 9 per cent on par value—interest payable quarterly—stock subscribed in Santa Ana with the earnings, together with what is put in by the company as needed, is all left in Santa Ana—for the up-building of the city. We buy all building material here, employ all labor here. If you want something good, take it at home and watch it grow. Mrs. Olive Lopez will call on any ladies who may be interested. Stock may be paid in full, or 10 per cent down and 5 per cent a month. We can locate you on the Wakeham tract or the Highland tract, where you can have about an acre at the right price. Will build to suit you.

Joy-Riders Have Been Busy,
Which Also Kept the
Officers Busy

Two automobiles have been taken possession of by joy-riders in the last two nights, and no small amount of trouble was necessary to locate the machines and return them to their owners.

Saturday night Horticultural Commissioner Bishop's Reo was taken from in front of Odd Fellows building. City officers searched the streets, and found it near the high school, where it had been abandoned.

Last night J. B. Ramsey's automobile was stolen from in front of the Grand Opera House. This morning City Marshal Jernigan and Ramsey found the machine on East First street. It was evidently driven a number of miles.

HIGHWAY LEADER TO BE AT CONVENTION

Interest in the third annual convention of the Pacific Highway Association, which convenes at San Francisco on August 5, 6 and 7, continually grows, and active preparations are being made by delegates who will meet for this central meeting point for the purpose of devising ways and means for improving the "Road of Three Nations."

In commenting on road conditions and difficulties that will have to be overcome, Judge J. T. Ronald, president of the association, recently gave out the following interview:

"I have been assured by a great many of my friends throughout Washington, Oregon and Northern California that they are doing everything possible to make our trip just as agreeable and pleasant as possible. I have personally asked a great many boards of supervisors and county commissioners to render all possible co-operation in making immediate slight repairs that will leave a favorable impression of road conditions with our friends who go to San Francisco. To all of the officials that I have not been able to reach, I wish through the medium of this interview to express my desire that they co-operate with us as far as possible and thank those that have already rendered such efficient aid in making the Pacific Highway route not only passable but enjoyable for all kinds of travel this year. I anticipate that splendid results will come from this gathering. Last year more was accomplished at Portland than I ever hoped for and I believe that the annual gathering this year will equal that record."

State Highway Commissioner A. B. Fletcher, of California, has accepted an invitation to address the convention and will be listened to with a great deal of interest, as he will tell of how California is spending her \$18,000,000 bond issue for road construction. Some of the preliminary plans for this work have already been let and the plans are well under way so that Mr. Fletcher will be able to talk about actual accomplishments rather than visionary plans.

BARON ROTHSCHILD TRUE TO HIS RACE

Plans Splendid Citrus Project on 60,000 Acre Tract Near Old Palestine

Baron Rothschild is planning to put 60,000 acres near Palestine in citrus fruits. Rothschild is a veritable Moses to his race, recently said the Los Angeles Times editorially. If his activities were limited toward the Zion movement their effect would be comparatively small, no matter how splendid and generous they are in their proportions, but Rothschild has gone about working for a new Jerusalem, not in the Holy Land, but in the heart of his people wherever they may be. He has sought to establish a kingdom in old Jerusalem, but he has endeavored instead to give his people freedom and abundance in all of the lands to which destiny has carried them. It has long been suspected that the victory of Japan over Russia was made possible by the Rothschild millions. His name backed the huge Japanese loan, making possible the successful fruition of their war, and a great loan was made for the one motive of striking Russia at the heart because it has persecuted the Jewish people.

NEWPORT BEACH MAN GOT A BOAT TO SAVE BATHERS

AVALON, July 15.—Excitement prevailed Saturday at midnight when the report reached Avalon that a party of bathers had been caught in a tide-rip off Pebble Beach and were in danger of losing their lives. A boat was immediately sent to their assistance. The party consisted of Miss Rosy Hartman, Miss Flo Palmer of Long Beach, John Reiss of Newport, Webster Yates and Horace Hazen of San Pedro.

From the story told by Miss Hartman yesterday, the party in bathing suits started for Pebble Beach at 11 o'clock. All went well until Miss Hartman encountered a large bunch of seaweed, rushing and swirling with the tide. Part of this became entangled over her arms. Twice she sank gasping, crying for assistance, and swallowing large quantities of water.

Yates and Hazen immediately swam out to the helpless girl. Despite their efforts to swim back to the beach after having removed the seaweed from the struggling swimmer, the three were compelled to strike out for another landing place on the rocks.

Several times they were compelled to rest on the surface. Fearing another mishap if they should try to swim from the rocks to the beach, they shouted to Reiss to get them a boat. Owing to the turbulent waters bathers seldom frequent the south end of the beach.

Compulsory are half holidays in old England

England has recently gone further than any other country in legislation for the protection of workmen, women and children. On top of such measures as the Employers' Liability act and the Old Age Pension act, a law went into force in May 1 which restricts the hours of work in shops as follows:

"On at least one day in each week a shop assistant shall not be employed about the business of a shop after 1:30 in the afternoon."

"No person under the age of eighteen years shall be employed in or about a shop for a longer period than twenty-four hours, including meal times in any one week."

"Every shop shall, save as otherwise provided by this act, be closed for the serving of customers not later than 1 o'clock in the afternoon on one week-day in every week."

The Katzenjammer Kids Take the Bell Theater

Every man, woman and child has heard of the Katzenjammer Kids. That all may become better acquainted with them, "The Kids" have come to Santa Ana for tonight, Tuesday and Wednesday nights, and have taken possession of the Bell Theater. The fun and amusement that this team has created all over the country is too well known to mention, and to see the Katzenjammer Kids in entertaining at a dinner party in honor of Mommer Katzenjammer can well be understood but must be seen to be appreciated, for Hans and Fritz will be there in all of their tricks.

Another great reel of motion pictures, Pathe's Weekly, with big events from all over the world, and others of comedy, with a high class vaudeville team, will make up the program at the Bell for three nights—Monday, Tuesday and Wednesday.

GAME COMMISSION ATTORNEY TO DELIVER ADDRESS HERE JULY 22 ON GAME AND FISH

R. D. Duke, the legal adviser of the Fish and Game Commission, and a man who has taken great interest in stocking streams with fish and mountains with game will speak in Santa Ana on Monday, July 22, at 8 o'clock at Spurgeon's Hall on the objects of the Great Fish and Game Protective Association, what the Commission expects to accomplish for the people in restocking and rehabilitating our streams, and for fish and game protection generally, and legislation pertaining thereto.

Mr. Duke is a pleasing, fluent talker, thoroughly conversant with his subject and with a positive desire to remedy the present laws and conditions.

It is the wish of the Commission that every member of the Association as well as the general public will attend this meeting. Ladies are urged to attend.

Orange County already has a big list of members of the Game and Fish Protective Association. The list of members in this county follows:

California is the first and only state in the Union to advance the idea of the people directly proposing legislation regarding the protection of its fish and game and the disposition thereof.

The one hundred and fifty thousand people who take out hunting licenses in this state have many and various conflicting ideas in regard to open and closed seasons and manner of protection necessary. Therefore it has become too large a question for a board of three commissioners to presume to give the necessary satisfaction without taking the people into their confidence, and to propose legislation intelligently for the many and varied conditions of the great state of California, where can be found eternal snows and tropical conditions in five hours' travel, where the highest mountains reach to the skies and the depression of Death Valley is as deep as the bed of the ocean. It is such conditions that have given dissatisfaction under a general state law regulating our fish and game. The district law now in existence was a step in the right direction, although far from adequate in its application.

The Fish and Game Commission hopes to take the people into their confidence through the organization of the Great Fish and Game Protective Association, to have the people from Siskiyou to San Diego express their wishes in regard to the necessary legislation and conditions, and who are surely better qualified to know of the needed conditions in their own particular districts.

It is proposed to have the members of this association in the different counties of the state meet before the legislature convenes, discuss the changes in the fish and game laws suitable for their own locality and recommend the open season for the taking of fish and game. When the people of each locality make their recommendations, they will be compiled in proper legal form by the commission, who will then ask the legislature to pass them.

The Fish and Game Commission believes that when the people have a voice in controlling their own fish and game that they will be conservative, both in the numbers to be legally taken and the season in which it may be taken.

These measures will no doubt receive the endorsement of the respective legislatures of their respective districts, and it will be the means of saving thousands of dollars to the state in passing fish and game legislation and prevent the constant bickering that has existed in previous seasons.

The commission hopes to improve Assembly Bill No. 28. As it now exists it allows the board of supervisors to condemn rights of way along streams running through unincorporated or wild land that has been stocked by the state. They believe that the state should condemn these rights of way and pay for them so that the people may have a perpetual right to pursue the fish that the state has paid for.

The Fish and Game Commission is endeavoring through these associations to form for the people one big fishing club where every man may pursue the same unmoled, to regulate and control the man who handles our fish for profit.

This and much more may be brought about through this organization. Applications can be had at the office of the county clerk.

There are now over ten thousand members of the Great Fish and Game Protective Association.

APRICOTS CONTAIN BIG SUGAR PER CENT

Reports from apricot growers are that the fruit seems to have much more sugar in than usual. One grower said that the first six hundred pounds he dried the shrinkage was at the rate of three and a half to one, which would mean that it would take three and a half tons of green fruit to make one ton of dried fruit. Last year the rate was five to one. The early fruit has more sugar in than the later.

POPULAR PAMPHLETS ON HEALTH TOPICS

The necessity of giving people information on the questions relating to health and prevention of disease has evidently been accepted by the various organizations working for the public good. The practical and concrete character of most of the material for public distribution is noticeable and commendable. Two excellent examples have recently been issued. One, "What Children Should Eat," is issued in the cause of child welfare. It is an attractively arranged and well-printed little pamphlet of twenty-four pages, containing information for the mother or nurse on "Why Children Should Eat," "How Children Should Eat," "What Children Should Eat," "What Children Should Not Eat," and "How Much Children Should Eat." It also contains chapters on "How to Choose Food for Children," "How to Prepare Food for Children," "How to Prepare Food for Illness," "What Food Children Should Eat When Ill," "What Food is Needed in Special Diseases," etc. The paragraphs are short and concise and the directions are easily understood. Another is an artistic pamphlet entitled "The Child," printed and distributed by the Metropolitan Life Insurance Company for the use of its policy-holders. It contains chapters on "The Home," "Preparing for the Baby," "The Baby Up to One Year," "The Run-Around Baby," "The Child of School Age," "The Sick Child," and a final chapter on "Emergencies." The preparation and distribution of these two pamphlets, and of similar educational material is strongly commended by The Journal of the American Medical Association in a recent issue. The present tendency toward wider knowledge on health matters cannot fail to produce a marked effect in a few years.

HOWE OUT FOR EVANS

The Imperial Valley Press, which hitherto has not favored the congressional candidacy of S. C. Evans of Riverside, has now decided to support him. Here is the latest editorial from the Press on this subject:

"Once more, the congressional situation. The scene shifts and the view is better defined. San Diego has centered on Lewis R. Kirby, so far as it can center on any person, and Mr. Evans of Riverside has made unequivocal announcement of his support of Roosevelt. These are two new features in the situation, and in a day the whole aspect is changed.

"This valley would very gladly cooperate with San Diego in the selection of a congressman if that were made possible, but, unfortunately, conditions are such that it is not possible.

"Mr. Kirby made his appearance as a congressional candidate on an individual platform. He does not stand for or against Roosevelt, or for or against Taft. His personal platform is neither progressive nor stand-pat. It is a series of declarations, each so qualified as to make it meaningless. The fact that Mr. Kirby is supported by the stand-pat crowd in San Diego gives odor to the belief that he is in reality designed as the reactionary candidate.

"A candidate for supervisor might well issue a personal platform, but a congressman is so essentially a factor in party politics that it is inevitable that he stand on party issues and take sides according to the demarcation of parties.

"The Press has not been inclined to look with favor on the candidacy of Mr. Evans. Until yesterday it believed this county should bring forth its own candidate, San Diego having failed to present an acceptable man.

"But the progressive vote of this district must not be divided, and now that Mr. Evans has placed himself definitely on record with the progressive element, the Press sees no course but for all the progressives in the district to give him loyal support."

STATE'S ORCHARD RICHES

Official figures for the year 1909 show that California produced fruits and nuts to the value of more than \$50,000,000. Doubtless the aggregate values have increased largely since then, as the orchard area of the state constantly is being enlarged. Soon the fruit and nut crop of this state will be a \$100,000,000 institution. In tropical fruits Southern California leads the rest of the state while, naturally, the bulk of the deciduous fruits is produced north of the Tehachapi. Southern California also is premier in nut production.

WHY NOT WILSON?

FROM THE FRESNO REPUBLICAN

Since the Democrats have nominated a Progressive, why run Roosevelt as another Progressive?

This is the question asked by many sneering Democrats and by some puzzled Republicans. In fairness, it must be met.

If we were building only for today, and if there were no issue except that of rebuking the outrageous conduct of the Republican national organization, there might be point to the question. The traditional way to punish Republican wrongs is to vote the Democratic ticket, and when the Democrats invite that remedy by presenting a good candidate, it seems particularly easy to use it.

But consider the larger situation. Here is no temporary emergency, but one of the crises in history, whose decisions affect the whole future. The Progressive and Conservative parties are in process of formation. If this crisis were allowed to go by default, the election of Wilson would establish the Republican party permanently as the conservative party, and would commit the progressive movement irrevocably to the Democratic party. It would end the long era of Republican supremacy, and usher in a confused era of Democratic-Progressive supremacy. It would saddle the Progressive movement with free trade, states' rights, the Solid South, and all the historic heresies and ingrained ineptitudes with which two generations of irresponsibility have loaded the Democratic party. It would commit the Progressive movement to a messianism as unequal as the Republican one from which it has just emerged, with none of the compensating practical advantages of that union. It would be starting on a way which leads nowhere and could never be finished. And it would be donating to the reactionary cause the undeserved advantage of Republican prestige, efficiency and economic soundness. It would be adopting, for a temporary reason, a permanent alignment no less absurd, and infinitely less practical, than the one now breaking up. Wilson's election, if it should happen to come on a three-party line-up, would not necessarily involve these consequences. But his election conceded by default, on a two-party division, would make them unescapable.

So, even if there were no hope of Roosevelt's election, his candidacy would be worth while, in order to limit the Wilson victory to its legitimate temporary purpose, while preparing a better way for the permanent alignment of the future. This is taking the matter at its very worst, and assuming that the Roosevelt movement this year could go no

further than a diversion.

Still working from this pessimistic basis, and assuming the election of Wilson inevitable with or without a Roosevelt candidacy, there would be an added advantage in making the inevitable defeat of Taft more complete. With Wilson first, Roosevelt second, and Taft a bad third, receiving perhaps no electoral votes at all, the complicated political situation would have taken a long step toward that simplification which every one desires. The Barnes-Penrose machine would be better than defeated. It would be destroyed—wrecked as utterly as the Herrin machine in California. Then, four years from now, the Old Guard Republican party being entirely out of the way, the Progressive party, either under that name or under a resumed Republican name, could occupy the vacant place, with most of the membership of the old party too, and the new alignment would be complete and unconfused.

All this has been taking things at their worst—assuming that Wilson's nomination is satisfactory and his election inevitable. But neither of these assumptions is correct. Wilson personally is a Progressive, of the milder type—advanced enough to seem progressive in New Jersey. But his nomination is not a Progressive one. It was literally forced from the unwilling convention of a reactionary party. His personal progressivism is not militant, and the party administration which his victory would establish is not Progressive at all. The over-emphasis of states' rights to which the history of the Democratic party and its present platform, as well as its candidate's personal views, commit the party, would make more progressive reforms impractical. Nationalism is essential to effective progressivism. So a Wilson victory would be a rebuke to stand-pat, but it would not be a very positive Progressive advance.

And the election of Wilson is by no means so likely as it is sought to be made to appear. The only thing predictable with certainty is the defeat of Taft. That is inevitable, no matter what else happens. But as between the other two, the result depends on events yet to occur and therefore beyond prediction. Wilson, with the prestige of victory and the immediate logic of the situation behind him, and with his party still in the bluff stage of post-convention harmony speeches, is at his strongest right now. The permanent untenability of his position, and his demonstrated weakness as a campaigner, will start him downward. Roosevelt,

with his party still unorganized and with everything in confusion, is at the point from which his strength will steadily increase. If the Wilson down-grade and the Roosevelt up-grade line cross each other before election day, Roosevelt will be elected. If election day comes before the meeting of the lines, Wilson will be elected. Roosevelt is, by actual test, the most effective campaigner in the world. If he does half as well with this fight as he did with the pre-convention one, his strength will have passed Wilson's long before election day. Either way, Taft is a bad and hopeless third.

Logically, the time has long been ripe for a new party. Practically, new

NEW OILING DEVICE BOTH ECONOMICAL AND EFFECTIVE

(FROM THE RIVERSIDE PRESS.)

Inventive genius has served to solve the problem of equal and economical distribution of oil in the surfacing of macadam streets. This new invention will at the same time be a labor saving device, for now one man can now do an equal amount of work before accomplished by two.

George D. Parker, of the Parker Machine works, is the inventor and patentee of this device, just placed in operation here. The first one to be put in actual use was this week tried out on the roads in the third supervisorial district, near Highgrove, where it has been giving excellent satisfaction.

The device can be attached to any road roller with little trouble. It consists of a series of pumps, connected by sprockets and chain to the rear wheels of the vehicle. As the wagon moves, the pumps are set in motion, and the oil is drawn from the tank at a rate governed by the speed of the wagon and the amount of oil desired for each square yard of surface.

On the rear wheels of the wagon is fastened a four-foot sprocket. This is connected with the main shaft that in turn, by a cone gear, is in direct connection with a shaft from which eight rotary pumps are run.

From the tank the oil is drawn through a six-inch pipe into a perforated steel pipe pierced with quarter-inch holes five-eighths of an inch apart.

By means of a lever beside the seat the driver can throw the pumps in or out of gear as desired. He can also

regulate the amount of oil that is spread on the surface of the road. This is so arranged as to run in any one of five amounts ranging from one to five quarts to the square yard. While there are still certain alterations to be made in the device, the showing in actual work during the past week demonstrated its practicability. Larger pumps are to be placed on the machine, and with these it will be possible to deliver practically pure asphaltum.

The device does away with the necessity of an operator at the rear of the wagon to regulate the flow of oil to correspond to the speed of the horses. This is all regulated by the movement, whether fast or slow of the wagon itself.

On the Center street grade near Highgrove the road was oiled by this machine. The grade here is quite noticeable, and the six horses drawing the 865 gallon tank, jerked from side to side as they tugged up the hill, but still the black oil was spread uniformly on the roadbed.

At the half-mile mark the remaining contents of the tank were measured to determine if the oil was flowing out at the correct rate. It was found to vary not a fraction of an inch in depth.

While Mr. Parker obtained a patent on this machine, which is the first device of the kind to be placed on the market, over a year ago, as yet only one has been manufactured. When the plans are completed the machines will be made here and undoubtedly will soon be in universal use.

parties do not start on mere logic. It takes some overt act or accident. The Chicago steel constituted the overt act. What no one felt himself strong enough to bring about yet, brought itself about. Whether it is the forerunner of a permanent Progressive party (which is logical) or of an unequivocally progressivized Republican party (which might be practical) only the future can determine. The Roosevelt third party movement lays the foundation for either, and may possibly complete the erection of the better one right now. The omission to make that movement now would make it forever impossible to make it. Instead, the uncontested election of Wilson (Taft is not a contest) would render it impossible, four years from now, either to start a new party or to reform the Republican party. The break must be made now or never. And, whether this is 1856 or 1860, whether this is a Fremont pathfinding or a Lincoln victory, the break is worth making.

If an individual wishes to vote for Wilson (nobody is for Taft) that is his business. But if organized leadership were to provide no channel

except the Democratic one, for the revolt of 1912, that would be a crime against all future history, as well as an inexcusable neglect of present duty and opportunity.

THE SEWING GIRLS

Mrs. McClain Entertained Her Friends at Friendly Gathering Last Saturday

Mrs. W. H. McClain was hostess Saturday afternoon to a number of young women who have formed in the pleasant habit of meeting together under the name of "The Sewing Girls," and passing entertaining hours over dainty needlework and in social chat.

Of course there was conversation on interesting topics at Saturday's meeting while the ladies embroidered or sewed, and cooling refreshments of ices and cake were served by the hostess before her guests said their good-byes.

Those present besides the hostess were Mesdames Howard Turner, Jabe Hill, E. K. Gearhardt, Cal Lester, Mark Lacy, Chas. Clayton, James Harding, L. R. Langworthy, M. A. Patton; Miss Martha Whitson.

HOT WEATHER BAD FOR THE LIMA BEANS

The hot weather of today and yesterday is said to be very bad for the lima bean crops, as the vines are just now in bloom. The runners and the blossoms are very tender and are easily affected by the hot weather. A hot spell just at this time is always feared by the ranchers, as it greatly decreases the yield.

UNION SERVICES AGAIN ATTRACTED BIG CONGREGATION

That the union Sunday evening services are greatly approved of was again evidenced last night when the Grand Opera House was filled, auditorium and galleries, by an interested congregation.

Rev. Otto S. Russell was in charge of the order of services, and other pastors participating were Rev. W. L. C. Samson with the invocation, Rev. Paul Wright, prayer, and Rev. H. E. Murket, benediction; Rev. J. A. Stevenson giving the sermon of the evening. Rev. Mr. Stevenson's theme was "The Danger of Drifting." He portrayed the dangers of a purposeless life or an easy going one with graphic speech.

Miss Ella Deardorff sang a solo, "Face to Face," and the choir, composed of singers from the various churches, sang the hymns and other musical numbers of the evening. The music was under the leadership of W. Frank Harris, who also directed the orchestra.

ROOSEVELT UNABLE TO BE AT ORGANIZATION OF PARTY UNDER "OAKS AT JACKSON"

OSTER BAY, N. Y., July 15.—Colonel Roosevelt finds he will be unable to attend the organization of the National Progressive party in Michigan "under the oaks at Jackson" July 20. He had been invited to "sound the keynote" of the Progressive campaign at the formal christening of the new party. "I am hard at work," said the Colonel, "with the preparation of a statement of my views on the big questions coming before the national Progressive convention. I want to have this completed before the convention meets. I do not think I shall be able to get away from here next week. I am sorry, as I would like to attend the meeting at Jackson."

Colonel Roosevelt added it did not follow that he would abandon his proposed trip through Michigan, Iowa and Kansas in connection with the primaries for the election of candidates for Republican electors. He may leave for the west a week after the Michigan convention.

IN WILD WEST TOGS GOV. WEST RIDES ON 400-MILE TRIP

SALEM, Ore., July 15.—Wearing a sombrero and cowboy chaps and riding his old black mare, Governor Oswald West Saturday night began the first leg of a 400 mile ride that will take him across three mountain divides and a tough expanse of semi-arid country. He is going to ride to Boise to attend the Congress of Northwestern Governors early in August.

The governor struck southward to catch the Santiam Pass across the Cascade mountains. His mare is lame, but as he expressed it, "I could not think of refusing her a chance to carry me and I'll baby her along awhile to get her into shape. If she can't make it, I'll get another mount."

SAYS THIRD PARTY SENTIMENT GROWING

S. J. Jackman of Santa Ana is Back From Trip of Five Weeks in the East

S. J. Jackman of North Main street returned Saturday from a five weeks trip in the East. He attended the Republican national convention at Chicago, and saw much of the excitement that prevailed there. Jackman spent some time at his former home at East Liverpool, O., and visited in other states.

"I found that the third party sentiment is growing stronger," said Jackman. "Lots of people are just realizing the full meaning of the happenings of the Chicago convention, and that is the reason the third party sentiment is growing so rapidly."

The Senator's Share Nil.

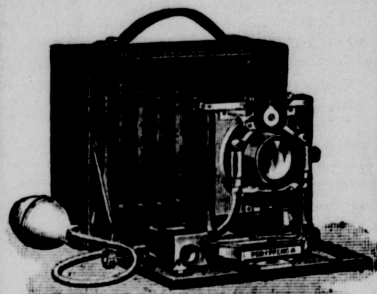

Senator Vardaman, so the story goes, once rented a plot of several acres to one of his black neighbors. The land was to be planted in corn, and the senator, then ex-governor, was to receive one-fourth. The corn was duly harvested, but the senator did not receive his fourth. Meeting the negro one day he said:

"Look here, Sam, have you harvested your corn?"

"Yes, sah, boss, long 'go."

"Well, wasn't I to get a fourth?"

"Yes, sah, boss, dat's true, but dar warn't no fo' th. Dar was jes' free loads, and dey was mine."—Judge.

MOVE FOR A GREATER DIVERSITY OF CROPS FOR RIVERSIDE

Twenty-five years ago Riverside was thinking and talking about the danger of "putting all her eggs in one basket." That was the favorite phrase by which the one-crop (citrus fruits) basis of the Riverside district was characterized. But orange growing was so profitable and so aesthetic and so aristocratic and so everything that was attractive that little headway has ever been made towards establishing, on a large scale, any other productive industry. Now, however, the unwisdom of failing to do so seems deeply impressed—at least, according to the Press, "a movement which may prove far-reaching in its results was inaugurated last Friday afternoon, when committees from the chamber of commerce and the realty board met to consider the question of greater diversity of crops in Riverside county."

"L. V. W. Brown, E. L. Koethen and S. L. Wright represented the chamber of commerce, and P. S. Castleman, C. C. Pond and Robert Lee Bettner the real estate men."

"It has long been realized by men acquainted with the local conditions that Riverside county possesses many agricultural possibilities which are at present wholly undeveloped."

"Up to the present time attention has been given almost wholly to the raising of oranges and alfalfa. This has been more particularly true of the Riverside district. Profitable as these crops have been, it is entirely likely that there are other crops for which this section might prove equally well adapted."

"Cherries, for instance, which are a tremendous asset to Santa Clara county, have been raised here in small quantities with equal success, yet no effort has been made to develop this crop commercially. Walnuts, apples, quinces, persimmons, have all been cultivated on a limited scale with complete success."

Commission Advised

"The time has come, in the opinion of the committee, for systematic investigation of local possibilities along these lines, and strong resolutions were accordingly passed advising the appointment of a commission which should make an exhaustive and scientific inquiry into the situation. The committee's findings are as follows:

"Inasmuch as the rapid growth of Riverside seems to require that we no longer confine our attention to two or three field and orchard products, we believe that a commission should be appointed to study local soil and climatic conditions with a view to recommending the planting of a greater diversity of crops."

"We advise that the university experiment station be asked to make experimental plantings of varied crops, and that the co-operation of ranchers in all parts of the valley be invited to the end that every suggested crop may have a serious and careful test."

"It is especially desired by this committee that all parties who have hitherto experimented with any fruit or vegetable, not now commonly grown in this valley, make immediate report on their success or failure to the secretary of the chamber of commerce. Reports should be in writing, giving the fullest data possible as to the test."

Co-operation Invited

"Attention is particularly drawn to the final paragraph of the foregoing report. It is the belief of the committee that a large amount of time would be saved if it were possible to obtain full reports of what has already been done along these lines."

"It may be, for example, that some individual grower has had marked success in the raising of some fruit or vegetable for his own use. A careful report of this, giving full details of crop, irrigation, time of maturing, effect of frost, soil required, and so on, will prove of great value. Secretary May especially urges that any persons who can give such reports do so without delay."

FEDERATION OF WOMEN'S CLUBS FOR SUFFRAGE SAYS LEADER

PHILADELPHIA, July 15.—The General Federation of Women's Clubs is not against suffrage, and did not shelve the question at the recent congress at San Francisco. Mrs. Rudolph Blankenburg, wife of the mayor of Philadelphia, who has just returned from California, is authority for this statement.

Here is what Mrs. Blankenburg said today:

"Suffrage was not shelved, nor is the Federation adverse to it. To the contrary, the delegates are almost solidly in favor of suffrage, but thought it best to sidetrack indorsement at this time owing to the fact that there is a minority of the members who are not yet won over to the cause."

"Mrs. Philip N. Moore, the ex-president of the federation, is an ardent suffragist, but she was adverse to

adopting Mrs. Edson's resolution for this reason and this reason alone. Desire to Educate

"Citizenship is the greatest thing that is coming to women. There is no doubt of it. But in the federation there is a very decided minority. The majority vote in the convention would have been the weakest argument for suffrage. It would have shut out of the federation the minority that the suffragists insist on having with them. We do not wish to overrule the timid, conservative women whom we wish to educate to citizenship."

"Mrs. Moore told the convention that the adoption of the resolution would be not only a blow to the federation itself, but likewise to the cause of suffrage generally, because the defeated minority would go forth militant anti, whereas they were in a frame of mind to be won over sooner or later. To thus adopt the Edson resolution would be arbitrary and make an open breach."

"Virtually all the officers of the federation are suffragists, but these very officers saw the mistake of forcing the cause upon those who might better be won by argument and time."

California Women Praised

"The California woman's clubs and club women are marvelous. The California club woman is better fitted for the ballot than the great majority of the men of this city. They had prepared themselves for the ballot by studying political economy and economics generally. They were fit as for the federal voters out there. But most intelligent federation being antagonistic to the suffrage—that is both, and ridiculous bosh at that. We eventually adopted a resolution to the effect that we should continue to teach citizenship and educate women up to the point where they will be fully prepared to utilize the ballot to its best possibilities when finally they do get suffrage."

"We all know that it is coming and the work of the suffragist is to educate her unbelieving sister."

NOT THE ONLY ONE SITUATED

There Are Other Santa Ana People Similarly Situated

Can there be any stronger proof offered than the evidence of Santa Ana residents? After you have read the following, quietly answer the question:

William Thursby, 417 E. Walnut St., Santa Ana, Cal., says: "Off and on for years I was bothered by my back and kidneys. To stoop or walk a little distance made the dull, heavy ache in my back more severe and my rest was badly broken. Further evidence of fault with my kidneys was shown by heavy sediment in the kidney secretions. Reading about Doan's Kidney Pills, I got a box at Dean's Drug Store (now Wheeler & Mateer's Drug Store) and soon after I commenced their use, I noticed improvement. My back became strong and free from pain and the difficulty with the kidney secretions was corrected." (Statement given March 8, 1907.)

A Permanent Cure

On August 16, 1909, Mr. Thursby was interviewed and he said: "I have not changed my opinion of Doan's Kidney Pills since I recommended them over two years ago. The cure they effected has been permanent."

RAPID PROGRESS OF DOUBLE TRACK WORK

SAN FRANCISCO, July 15.—The contract for the construction of fifteen miles of second track on the Southern Pacific, which will connect the towns of Truckee, California, and Reno, Nevada, has just been awarded to the Utah Construction Company. This is the latest part of the construction of a second track on the Harriman Lines between Omaha and San Francisco. Already hundreds of men are employed in clearing away underbrush along this stretch of fifteen miles. Camps, military in appearance, line the track and few people traveling over the line realize just what a stupendous job this fifteen mile stretch will be.

A large part of the proposed double tracking of the Southern Pacific has already been completed. Between Sacramento and Colfax the second track is already in operation. The laying of the second track from Benicia to Sacramento, a distance of 58 miles, is completed with the exception of 8 miles between Webster and Washington. This stretch of 8 miles involves the raising of the roadbed across the Yolo Basin and the rebuilding of approximately two miles of bridges. It will probably be completed about the first of October and there will then be a double track the entire distance between Oakland Pier and Colfax.

Between the Oakland Pier and Port Costa the second track has been in operation for some months. From the Pier to Richmond the company is operating four tracks continuously. A little more than 25 miles of second track has been laid and is being operated on the Salt Lake division of the road approximate to the Lucin cut-off. The laying of the second track over Nevada will not be such a problem as has been the same kind of work in the mountain districts. By the first of October there will be about 142 miles of double track line in operation. The engineers in charge of the work have no fear but that it will be complete from San Francisco to Omaha by the time of the exposition.

GENERAL ASSEMBLY OF BIBLE STUDENTS

Pastor Russell's Address at Glen Echo Park, Washington, D. C.

We Declare the Bible to Be the Only Center of Attraction and Standard of Faith—Four Thousand Representatives Present From All Parts.

Washington, D. C., July 14.—The International Bible Students Association closed a very successful eight-days' Convention at Glen Echo Park tonight. Approximately forty speakers have addressed the Convention. Pastor Russell was the principal speaker this afternoon. His text was, "But ye are come . . . to the General Assembly, and Church of the First-born, which are written in Heaven."—Hebrews xii, 23.

The speaker declared that St. Paul points us back to the institution of the Jewish Law Covenant at Mt. Sinai and uses it as a picture or type of experience of the Church to be expected at the Second Coming of Christ and the establishment of His glorious Kingdom.

St. Paul pictures the march of the Israelites from the Red Sea to Mt. Sinai, implying that some got to the mountain much in advance of the others, but waited there for the General Assembly. The Apostle points us back to the awful experiences connected with the inauguration of the Law Covenant—Mt. Sinai smoking, lightning flashing from the cloud and thick darkness which enveloped the mountain, the earth trembling, the Voice of God heard, the people in fear.

All these things, said the Pastor, according to St. Paul, were forewarnings of still more wonderful things to be expected in the near future in connection with the inauguration of the New Covenant. Many had misapprehended the Apostle's teaching in respect to the New Covenant and thought it already sealed and in operation. But not so. The Scriptures assure us that the work of Christ and the Church during this Age has been a preparatory one, without which the New Covenant could not go into effect.

A Time of Terrible Trouble. Everywhere the Bible associates with the coming of Christ a great trouble upon the world and assures us that the faithful of the Church will be spared from it by their resurrection change. The plowshare of trouble will upset human pride and humble the world and make them glad to welcome the Messianic Kingdom then to be established for the purpose of bringing to Israel and to the world the long promised blessings of the New Covenant.

The introduction of this Kingdom St. Peter styles the Day-dawn. (11 Peter i, 10.) He describes its work as most blessed, saying, "Times of refreshing shall come from the presence of the Lord—He shall send forth Jesus Christ—whom the heavens must retain until the Times of Restoration of all things, which God hath spoken by the mouth of all His holy Prophets since the world began."—Acts iii, 19-21.

St. Paul's interpretation of the Mt. Sinai experiences would imply a "Day of Vengeance"—the very term which the Bible uses. Society will be so shaken and its experiences will be so dreadful that, like the Israelites of old, all will be ready to enter for the Great Mediator—the Christ, Head and Body—Jesus and His Church in glory—to stand between them and the Almighty. It will be in response to this universal cry that the Messianic Kingdom will be established and by the New Covenant take over the control of the entire world of mankind; for whom, by the grace of God, Jesus Christ tasted death.—Hebrews ii, 9.

Terrible as the squaring of the world's accounts will be preparatory to the opening of the New Dispensation with a clean page, they are rational as well as Scriptural. Humanity will be able to look up to God and acknowledge His Wisdom and Justice, and then to thank Him for the loving provision of the Messianic Kingdom, under whose beneficent reign they may be helped back to full human perfection and to a world-wide Eden.

The Church in General Assembly. We have greatly enjoyed, dear brethren, our Convention or Assembly. But what will it be to be there—in the General Assembly of the entire elect Church of God? There will be no sectarianism there, though there doubtless will be saints of God from every sect in that Convention in Glory! Let us carry with us as a sense of the reality of the glorious promises of the Bible, which, we believe, are hastening to fulfillment.

Even now, on every hand, we see the evidences of social unrest; and the wonderful blessings of our day are being received by unthankful hearts with ingratitude, breeding discontent and paving the way for anarchy and paganism. The Bible teaches us to expect. It is a time for faithfulness to God, to His Word, on the part of all who are of "the household of faith," of every nation and denomination. It is a time for the Bride to make herself ready, for the Bridegroom.

Harmless After All.
Gen. E. De V. Morrell, at a national guardsmen's dinner in Philadelphia, told an appropriate story.

"A young man was being entertained at luncheon at a young girl's one Sunday evening," he said. "Little Jimmy, the girl's brother, broke the silence of the soup course to remark: 'Say, Mr. Smith, you certainly did look fine last night, sittin' beside sister on the parlor sofa, with your arm around the mother.'"

The Difference.
Thomas L. Woodruff, dressed no less quietly than faultlessly, was laughing at the Chicago Auditorium over the old stories about his configuration or rainbow waistcoats.

"My waistcoats," he said, "were always in good taste. At least they were always quiet. Those old yarns about them were started by men who had never seen a waistcoat that didn't match a coat."

His Wife Was Wise.
A weary angler stole furtively into a fishmonger's shop and with a sigh threw his empty creel on the counter.

"Put a few fish in that," he said. "Put 'em up as if they had been caught today."

WARRANT OUT CASE BIGAMY

Marriage of Nov. 8 Results in
Starting of Prosecution in
This County

A warrant was issued here today
for the arrest of William R. Rawlins
of Eagle Rock, for bigamy. The
complainant is W. R. Dickson, father
of Zelma L. Rawlins, who married
Rawlins here on Nov. 8. After the
marriage, the girl discovered that
Rawlins has another wife, Evelyn B.
still living and undivorced.

Rawlins was arrested in Los An-
geles recently, but it was found that
the prosecution would have to be in
the county where the marriage was
performed. Rawlins was 51 and the
girl 24. Constable Jackson went af-
ter Rawlins this afternoon.

Willis Is Here
K. J. Willis was put in the county
jail Saturday night by a deputy sher-
iff from Chicago, where Willis was
arrested. He will be prosecuted for
giving a \$15 no-fund check to Edgar
Hartung of Anaheim. Hartung knew
Willis when Willis was clerk in the
Citizens' National Bank of Los An-
geles, and when Willis stopped an
automobile in front of the First Na-
tional Bank of Anaheim, Hartung of
that bank readily cashed the check.

Gun-packer in Jail
Jesus Melendez of Tustin, who
waved a revolver threateningly when
he stopped Thomas Cook in the road,
was today sentenced to ninety days
in the county jail.

SENATE TAKES FIRST STEP IN THE ARCHBALD TRIAL

WASHINGTON, July 15.—The
House "prosecutors" in the impeach-
ment case of Judge Archbald of the
Commerce Court, formally reported to
the Senate shortly after noon this
report, which contained a summary of
the action of the House in adopting a
report of the charges against Judge
Archbald. This is the first step in the
formal trial of Judge Archbald before
the Senate.

When Senator Clayton concluded
the impeaching resolution, the senate
adopted a resolution to name a com-
mittee of five to take cognizance of
the impeachment and arrange a pro-
gram. Clark of Wyoming, Nelson of
Minnesota, Dillingham of Vermont,
Bacon of Georgia, Culberson of Texas,
were named. They will report tomor-
row. Judge Archbald being present or
represented by counsel. The general
belief is that the trial thus being for-
mally opened, further proceedings will
be delayed until fall.

JUAREZ SEEMS NO LONGER A PRIZE

Rebels Likely to Evacuate City
in Near Future—Mexico
Heavy in Debt

JUAREZ, Mex., July 15.—Bullet-
scarred Juarez, where Madero won
his revolution against Diaz, the
place of the present revolt, and chief
cause of international apprehension,
may be had for the asking before
the end of this week.

All indications point to its early
evacuation by the rebels. Less than
400 men guard the town now and
they soon will go to Casas Grandes,
the new rebel base on the Mexican
Northwestern Railway.

Oroscos Still There
Gen. Pascual Oroscos, Jr., his father,
Col. Pascual Oroscos, Sr., and his
nephew, Col. Jose Oroscos, are the
only rebel leaders in town. All other
officers and their men have been sent
to Casas Grandes. The detachments
still operating along the Mexican
Central, south of here, are merely
occupied with tearing up the railroad.
They will ride overland to Casas
Grandes, when their work is done.
Gen. Oroscos will join these forces in
three or four days. Several ambi-
tious Americans, believing Gen. Oro-
scos has amassed a private fortune of
a half-million dollars in the revolu-
tionary business, have approached
him with various schemes for es-
caping.

Mexico's Embarrassment
MEXICO CITY, July 15.—The chief
trouble at present in this republic is
how to meet its enormous financial
obligations involved in bills for dam-
ages to be presented by other na-
tions.

The United States will have a big
claim for settlement, so will Great
Britain, Germany, France, Belgium,
China and Italy.

Millions of dollars are involved in
the damage claims growing out of
the Oroscos rebellion.

**PERRY'S LAKE ERIE VICTORY
TO BE CELEBRATED IN 1913**
CHICAGO, July 15.—Tentative plans
have been made for Chicago's centen-
nial of Perry's victory on Lake Erie
against the British in connection with
the water carnival in August, 1913.
Ten states have made preparation for
the million dollar Perry memorial now
in process of construction on Put-In
Bay Island, Lake Erie.

Initiative Petition Filed Asks
For Vote on Abolition of
Death Penalty

Today County Clerk Williams re-
ceived an initiative petition asking
that the voters of the state may have
an opportunity to amend the laws so
that the death penalty may be abol-
ished. These petitions are being circu-
lated all over the state, and if enough
signers are secured the amendment
will be placed on the ballot in Novem-
ber. The petition was filed here by
Margaret D. Taylor.

German on Stand
Deputy City Marshal Phil German
of Anaheim was on the stand all morn-
ing in the trial of George Biggs,
charged with murdering Mr. and Mrs.
F. A. Montee. German was questioned
closely as to conversations he had
with Biggs directly after he arrested
Biggs.

New Citizens
This morning citizenship papers
were issued to Simon Toussau of An-
ahenm, C. H. Klar, Fullerton, Camp-
bell H. Druce and Fred Lieve. The
petitions of Fred Belzhauser, John M.
Mangold and A. C. Carle, and G. W.
